Academic History

SCIPP, UC Santa Cruz, Santa Cruz, California — **August 2018 – present**
Postdoctoral Scholar Employee, Mike Hance

- Analysis Contact for Standard Model Collinear-W Measurement — **November 2020 – present**
- Organized the (virtual) USATLAS Computing Bootcamp — *August 2020*
- SUSY Summaries subconvener — **April 2019 – present**
- ATLAS Open Likelihoods Developer/Advocate — **September 2018 – present**
- US ATLAS Diversity and Inclusion Committee — **September 2018 – present**
- ITk Pixel Instrumentation Upgrade efforts — **August 2018 – present**
- Contributing to various analyses in SUSY — **March 2014 – present**
- SUSY Common Dark matter ASG-RECAST Contact — *March 2019 – March 2020*
- SUSY Combinations Contact — *October 2018 – April 2020*
- SUSY Monte Carlo Produdction Contact — *August 2018 – July 2020*
- Instructor for many bootcamps and workshops to strengthen software expertise in HEP
- Recorded outreach videos for CERN and the Microcosm exhibit in American Sign Language. One video is on YouTube

University of Chicago, Chicago, Illinois — *September 2012 – July 2018*
Ph.D. Physics, David Miller

- Lead analyzer for new physics search in SUSY Multi-b-jets — *April 2017 – April 2018*
- Editor of the gFEX Final Design Report — *May 2016 – April 2018*
- Advocated support for strong funding of U.S. HEP programs, based on the P5 report, in Washington D.C. usparticlephysics.org — *2015*
- Bridge Program Tutor to enhance diversity in physics education — *June 2014 – April 2018*
- Worked to improve the ATLAS Trigger system in Run 3+ (gFEX) — *April 2014 – April 2018*
- Qualification: gFEX Software/Firmware communications development — *April 2014 – April 2015*
- Graduate Student Teaching Assistant — *June 2012 – December 2017*

California Institute of Technology, Pasadena, California — *Sep 2008 – June 2012*
B.S. Physics, Kenneth Libbrecht and Harvey Newman

Languages

American Sign Language, English (bilingual), French Sign Language (elementary), British Sign Language (elementary), Italian Sign Language (elementary), Spanish (elementary), French (elementary)

Dissertation

Ph.D. *The search for supersymmetry in hadronic final states using boosted object reconstruction*
ISBN: 978-3-030-34548-8

B.S. *Optical Coating Brownian Thermal Noise in Gravitational Wave Detectors*

Honours and Awards

Springer Thesis Award	*August 2019*
Nathan Sugarman Award for Excellence in Graduate Student Research	*May 2017*
US ATLAS Outstanding Graduate Student Award	*June 2016*
Young Researchers' Symposium Award for Best Poster Presentation	*November 2015*
Department of Energy, Office of Science Graduate Student Research	*Oct. 2015 - Jan. 2016*
UChicago Excellence in Graduate Teaching nominee	*April 2015*
US LHC Users Association Lightning Round winner	*November 2014*
UChicago Excellence in Graduate Teaching nominee	*April 2014*
UChicago Excellence in Graduate Teaching nominee	*April 2013*
Caltech Excellent TA Award	*2012*
Edward C. and Alice Stone Fellow	*June 2010*
